ReiSpace Cookie & Similar Technologies Policy

Version 1.0 | September 2026
ReiSpace Technologies Inc.

This Policy explains how ReiSpace Technologies Inc. uses cookies and similar technologies on its website and platform.

1. NECESSARY TECHNOLOGIES

ReiSpace may use cookies or similar technologies that are necessary to:

- keep users signed in;
- maintain secure sessions;
- support authentication and account recovery;
- protect against fraud or abuse;
- remember essential preferences;
- maintain reliable application behavior.

These technologies are used because the platform cannot reasonably provide the relevant secure function without them.

2. OPTIONAL ANALYTICS

Where ReiSpace enables optional analytics or measurement technologies, those tools must be included in the production vendor inventory and configured according to the applicable consent requirements.

ReiSpace does not authorize use of optional analytics to expose clinical notes, private messages, ReiGuide answers, journals, or other protected mental-health information to advertising networks.

3. ADVERTISING

ReiSpace does not sell browsing information for third-party advertising profiles and does not intentionally use sensitive mental-health information for targeted advertising.

4. THIRD-PARTY SERVICES

Third-party services such as payment processors may use their own necessary technologies when a user interacts with those services. Their own privacy and cookie practices may apply to their independent processing.

5. CURRENT INVENTORY

The production cookie and similar-technology inventory is maintained by Product/Engineering and Privacy & Compliance.

Before any optional analytics, advertising, session-replay, behavioural-profiling, or similar tool is activated, ReiSpace must document:

- provider;
- cookie/technology name;
- purpose;

- data collected;
- duration;
- whether it is necessary or optional;
- processing location;
- third-party access;
- consent mechanism.

6. USER CHOICES

Users may manage optional cookie preferences through any preference tool ReiSpace makes available and may also use browser controls.

Blocking necessary cookies can prevent secure account or platform functions from working.

7. RETENTION

Cookie duration and related server-side retention are limited to what is appropriate for the stated purpose and the current production configuration.

8. CHANGES

This Policy is updated when ReiSpace adds or materially changes cookies, analytics, tracking, authentication, payment, or similar technologies.
